This Event is brought to you for free and open access by the University Libraries' Events at CORE Scholar. It has been accepted for inclusion in Ohio IR Day by an authorized administrator of CORE Scholar. For more information, please contact [corescholar@www.libraries.wright.edu](mailto:corescholar@www.libraries.wright.edu), [library-corescholar@wright.edu](mailto:library-corescholar@wright.edu).

# Moving Student Journals to the IR

Debby Andreadis  
Denison University

November 14, 2017

# The Journals

# Background

- The library has housed the backfiles of the journals since 2010
- Front pages were housed on a WordPress site run by our webmasters
- Combination of purchasing Digital Commons and desire to retire the WordPress site led to moving current issues

# Challenges

- Each journal has a student editorial board - students are busy!
- Journal editors have varying degrees of technical experience
- Files come to us in a variety of formats
- Doing retrospective scanning for backfiles

## Where we are

- Met with each journal's editor and faculty advisor
  - Obtained all backfiles and begun work to segregate files into individual articles
  - Set up timelines for submissions and final input into our system
  - Discussed changes they want to the templates
- 

# What Happens Next

- Working with the editor of one of the journals to determine if they will use the backend system for receiving submissions
  - Need to work on ADA compliance guidelines for new documents we receive
  - Create custom designs for each journal
-
