This Syllabus is brought to you for free and open access by the College of Engineering & Computer Science at CORE Scholar. It has been accepted for inclusion in Computer Science & Engineering Syllabi by an authorized administrator of CORE Scholar. For more information, please contact library-corescholar@wright.edu.
Course Description
This course is concerned with the techniques of designing and constructing large programs. Some of the required basic concepts necessarily have to be developed using small programs as examples. To this extent, we also study programming-in-the-small. The overall objectives are to present an overview of issues in the development of software, to discuss terminology, to illustrate via example case studies, and to give sufficiently detailed advice on how to develop quality software. Hands-on experience is emphasized through the use of homework and a class project.

Professor
Dr. Jeffrey McDonald
Office Hours: Tues/Thur after class (1920) or by appointment
Mobile: 850-322-7866
Email: jeffrey.mcdonald@wright.edu
Class Hours: T Th 6:05 PM-7:20 PM, Creative Arts Center, Room A230

Text

Prerequisites
CS400 or CS600

Grading
Grading will be as follows:

<table>
<thead>
<tr>
<th>Component</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>Homework</td>
<td>15</td>
</tr>
<tr>
<td>Project</td>
<td>25</td>
</tr>
<tr>
<td>Midterm</td>
<td>30</td>
</tr>
<tr>
<td>Final Exam</td>
<td>30</td>
</tr>
</tbody>
</table>

Course grades will be based on the total score as follows. A: 90-100, B: 80-89, C: 70-79, D: 60-69, F: below 60. Grades may be further curved if appropriate.

You may work with others on homework assignments, but you must turn in your own individual work. Homework that has obviously been copied will result in a grade of zero for both parties and will be reported to the Office of Judicial Affairs, as will any other form of cheating.
Ten percent will be deducted for unexcused late homework.
The project will be worked in teams of three. You may pick your partner(s) or I will pick them. More detail on the project will be handed out later.
### Tentative Schedule Fall 2008

<table>
<thead>
<tr>
<th>Topic</th>
<th>Text</th>
</tr>
</thead>
</table>
| 1. T (9/9) Introduction  
   R (9/11) Software Lifecycles | Ch 1 |
| 2. T (9/16) Requirements  
   R (9/18) Ethics, Project | Ch 2, Ch 4 |
| 3. T (9/23) UML, Analysis  
   R (9/25) Analysis | Ch 2, Ch 4, Ch 5 |
| 4. T (9/30) Object Design  
   R (10/2) Object Design | Ch 8, 9 |
| 5. T (10/7) Project Management  
   R (10/9) Review and Catch up | Ch 12, Ch 14 |
| 6. T (10/14) In class midterm  
   R (10/16) System Design | Ch 6, 7 |
| 7. T (10/21) System Design  
   R (10/23) Implementation | Ch 6, 7 |
| 8. T (10/28) Testing  
   R (10/30) Testing | Ch 11 |
| 9. T (11/4) Structured Analysis  
   R (11/6) Structured Design | Handouts |
| 10. T (11/11) Configuration Managements  
    R (11/13) Maintenance, review | Ch 13 |

- R (11/20) 8:00 PM - 10:00 PM Final Exam

**NOTE:** There will be no early final exam – plan your travel accordingly. In case of a legitimate conflict, a makeup final can be arranged.

**Note:** T = Tuesday, R = Thursday.
