DECEMBER 1, 1979 FOR AN EARLY SUMMER (JUNE) 1980 STARTING DATE

Small Grants Research Program

Small research grants may be used to carry out exploratory or pilot studies, to develop and test a new technique or method, or to analyze data previously collected. The program invites application for research grants which cover the entire range of scientific areas relevant to mental health, or to drug or alcohol abuse. Community college social science faculty members should be prime candidates for these grants since the program emphasis is directed to applicants that have limited resources for institutional research and limited experience in conducting research projects.
