APPENDIX A Free Speech Policy Proposed

I. General Policy Statements.

- A. Wright State University (the “University”) permits, promotes, and supports the free expression of ideas, views, and opinions by its faculty, students, staff, administrators, and visitors (hereafter “members of the academic community”). The University is committed to rights of expression, affiliation, and peaceful assemblage.
- B. The University also has an equal and simultaneous obligation to protect the rights and freedoms of those who choose not to participate in free speech or peaceful assemblage activities. Additionally, the University has an obligation to protect its property and to assure continuation of the activities of students, university faculty and staff, and guests on campus.
- C. The University is committed to freedom of thought and freedom of expression. Everyone has the right to express their opinions and shall be free to discuss, debate, and express ideas and opinions in public or private forums as long as they do not disrupt university functions. Such ideas and opinions include matters related to professional duties and the functioning of the University. These rights are in addition to the rights accorded to all persons by the United States Constitution. This Free Speech Policy (the “Policy”) thus precludes any form of discipline, intimidation, or reprisals resulting from such protected activities.
- D. This Policy deals only with matters pertaining to the time, place, and manner of the exercise of free speech and peaceful assemblage activities at the University. This policy does not address, nor shall it be interpreted as addressing, the content or subject matter of such activities.

II. Definitions. For the purposes of this Policy, the following terms shall be defined as follows:

- A. “Demonstration” – means a speech activity covered by Section IV. Of this Policy which is promoted in advance or expected to draw more than 25 people, or any other large gathering that might, because of its nature, be reasonably expected to disrupt classes, block building access, or create traffic hazards.
- B. “Disrupt” means to actually, rather than potentially, interrupt the normal course of the University’s activities or operations. Examples of disruptive behavior under this Policy include, but are not limited to, the following: (1) interfering with, impairing, or impeding University teaching, research, or administration; (2) interfering with, impeding, or blocking the flow of vehicular, wheelchair, or pedestrian traffic on any paved street or path; (3) interfering with, impeding, or blocking any entrance or exit to any building; (4) violating any federal, state, or local law, regulation, or fire code, including the University Code of Regulations; (5) interfering with an event by blocking views or making sufficient sounds to mask a speaker or performance from being heard; (6) using voice or amplification systems without prior approval by the University for the use of such systems; (7) destruction of University or personal property; (8) any act or

behavior which prevents a listener from leaving a free speech event; and/or (9) failing to comply with the orders or directives of identified University officials, police, or any other law enforcement officers acting in consideration of the health, welfare, and safety of all concerned.

- C. "March" – means a speech activity covered by Section IV of this Policy that, regardless of the number of individuals likely to be involved in the activity, has, or is likely to have, a mobile component associated with the activity.

III. Free Speech Policy. With the exception of those activities covered by Section IV of this Policy (i.e. demonstrations and marches), the following shall constitute the University's official Free Speech Policy regarding the use of the publicly accessible outdoor areas on the University's main campus:

- A. Except for activities covered by Part IV of this Policy, any individual or group may use, without prior permission. On any day of the week during daylight hours, any publicly accessible outdoor area of the University's main campus to collect signatures, distribute materials, and/or perform speech acts, as long as they do not disrupt other campus activities.
- B. University departments and registered student organizations may schedule university space to bring speakers and programs of their choice to the campus on a space available basis. Such speakers shall have the same access to University facilities as their sponsor.
- C. This Policy is inapplicable to situations arising within the context of normal classroom instruction and discussion.

IV. Demonstrations and Marches. All sponsors of demonstrations or marches must provide prior notice of such events to the President or his/her designee not less than 24 hours in advance. Under compelling circumstances, the hour requirement can be waived by the President or his/her designee. Items of information necessary to complete the process include:

The President or his/her designee shall provide the organizers of the event with a copy of this Policy and any other documents, written material and information that will ensure the health, safety, and welfare of all concerned. Organizers may also be requested to reschedule the event or modify the location, times, or route or make other arrangements, in order to achieve the objectives stated above.

V. Enforcement.

- A. The Wright State University Police Department (the "Police Department") shall enforce the provisions of this Policy.
- B. The President of the University, or his/her designee, shall resolve any dispute between any individual or groups of individuals regarding the use of space for any free speech activities subject to this Policy. He/she may, if deemed

necessary, enact a procedure (e.g. creation of a “speech grid;” requiring minimum spacing between speakers; granting permission on a “first come, first served” basis, etc.) whereby such questions are determined. Such procedure shall be content neutral regarding the free speech activities involved in the determination.

VI. Prohibitions.

- A. No one purporting to be operating under the terms of this Policy shall disrupt any University functions.

Buildings & Grounds Committee – Mateen Rizki

Information Technology Committee – Barbara Denison

Friday, February 11 at 1:30 in 248 Rike Hall

Present: Barbara Denison, RSCoB; Rebecca Teed, COSM; Maggie Veres, CEHS; Sherrill Smith, CONH; Michael Raymer, CECS (representing Academic Services Committee); T.K. Prasad, CECS; Kathi Herick, Library; Paul Hernandez, Larry Fox, CaTS; Pat Bruchs, Chuck Fahnestock, Printing Services

I. Networked Printing Proposal

Printing Services is currently evaluating desktop printer toner consumption in Kevin Watson's department in CEHS. Patrick Bruchs, Director of Printing Services, and Chuck Fahnestock attended to discuss the pilot study. For the 90 day trial which ends in March, readings are being taken from 72 printers. There are 140 networked printers managed by Woodhull. WSU's expenses for toners and supplies currently exceeds \$350,000 per year. This figure probably doesn't include all ProCard purchases. Departments may store toners for multiple models of printers, as many as 500 models on campus. Routing high volume jobs to networked printers and even higher volume jobs to Wright Copy has the potential to cut costs as much as one-third.

With beacons on the printers, toners can be automatically shipped as needed which will reduce the need for toner inventory.

Printing Services will be evaluating the results of the first pilot test. They are also evaluating software that might reside on desktops and recommend where to route printing. This would be voluntary.

After discussion, the committee invited Printing Services to attend a meeting early spring quarter to discuss the results of the pilot.

II. CaTS Policies

Larry Fox presented the following updates and items for discussion. Refer to the attachment for the policy explanations.

#18 Restrict General UNIX Shell Access to campus networks

After the IT Committee meeting discussion last quarter, CaTS opened up VPN process for students so they can obtain the VPN without a waiting period. Faculty and staff already had this. CaTS would like to start blocking open ports starting Spring quarter and will provide campus communication on this. CaTS opened up Web Page VPN access for Mike Raymer to test and regular VPN. Mike Raymer reported that both of them tested fine. He saw no reason not to proceed with this project. CaTS will send out campus communication and instructions. Maggie Veres moved approval of the project; Sherrill Smith seconded and the faculty IT committee approved. The policy will be forwarded to Faculty Executive Committee for approval.

#20 Have users access their shared and home directories remotely using VPN instead of Myfiles

Kyle Peterson demonstrated this to the committee last meeting. It would require users to do a one-time download of the VPN client. Once the client is installed and the user logs into the network they will click on a provided link which will map their campus resources. The file access is more straightforward and convenient than Myfiles. It would provide access to K: drives as well as H: drives. The IT Committee was asked by email after the meeting if there were any objections. Having none, the project is approved and is proceeding.

#21 Replace McAfee with Microsoft Forefront Anti-Virus program

For campus use, this removal and installation process will execute from the network and run in the background which will eliminate any interaction or downtime for the end-user. The CaTS web pages will be updated so that faculty and staff can also download Microsoft Security Essentials for home use. CaTS will explain on the page that you need to uninstall the current virus software you are currently using before installing the new virus scanning software. Sherrill Smith moved approval, Rebecca Teeds seconded and the faculty IT committee approved this.

#22 Change in Apple MacOS X Licensing

Effective July 1, 2011, This request will be centrally funded and faculty/staff will go through the normal channels to request the software. The large cost increase from \$20k to \$40k did not make it cost effective for the university to acquire a site license again so CaTS will purchase individual licenses. Rebecca Teeds moved approval; Maggie Veres seconded, and the faculty IT committee approved this.

Phasing out support of VHS

Paul Hernandez and Larry Fox reported that CaTS will recommend phasing out the use of VHS in classrooms. Faculty will be surveyed as to usage before determining a date but the end of 2012 is being considered. As classroom podium equipment is replaced, the new equipment would not have a VHS player so this would phase in over several years. There would still be some VHS players that could be ordered through CaTS for delivery. CaTS wants to determine the volume of

materials currently being used that faculty will want to have converted or purchase materials on DVD. There would be support of doing the file conversion but faculty would need to get copyright permissions. The Library will also examine their inventory and usage.

III. Center for Teaching and Learning

Dan DeStephen requested that the committee continue discussion of the draft guidelines for online classes during university closures. A brief discussion was held but no specific recommendations were made.

IV. Next Meeting

The next meeting will be Friday, March 4 at 1:00 pm in 248 Rike Hall.

Student Affairs Committee -

3. Report of the University President and Provost

President Hopkins

These are turbulent times. Tomorrow, Governor Kasich delivers his State of the State address. In advance of the release of his first budget on March 15, the new governor is expected to reveal the philosophy of his administration's approach for Ohio's future. I encourage everyone to stay abreast of what is happening in Columbus and stay focused. The pace of change around the budget is rapid and we don't yet know the challenges we face.

Governor Kasich has appointed a new Chancellor, Jim Petro. Based on previous comments by Chancellor Petro, there has been rhetoric surrounding the concept of charter universities. We don't yet know the outcome here but essentially this allows universities more autonomy for less funding

Senate Bill 5 has been passed by the Senate and is in the House. We will be monitoring this situation closely and how it affects Wright State.

Changes to the Federal budget not only affect us but our students suffer from budget reduction cuts. The Ohio College Opportunity grant program, which distributes funds to need based students, may be eliminated. Additionally, there has been a 20% decrease in Pell Grants which can affect 40% of our students and their families.

There are also good things happening so I encourage you to stay focused and move forward.

Senator Question: Are you for or against Senate Bill 5?

President Hopkins: I cannot support the bill as now configured. While I believe some reform is necessary I cannot support all aspects of this bill. The IUC Presidents have endeavored to have a collective voice; however, we do not all agree. Wright State has developed a system that has allowed us to work well together and I hope that can continue. I came from a union family and saw how it benefited my family. We work together. We don't always agree but we are a better institution because of all our involvement.

Senator Comment: In regard to charter universities, Petro cites a reduced application of sunshine laws and public document request but there is no dollar amount attached. These were two of his ten points.

President Hopkins: I have not seen the details of the charter university concept. The general concept of a charter university is that budgets are reduced but schools have more freedom in managing budgets to offset reductions.

4. Report of the Senate Executive Committee

The Executive Committee met on February 21, conducting the following business:

Student Government graduate student representative, Galen Crawford, presented a resolution on behalf of Student Government, supporting the use of one course management system rather than the current three, which will soon be two. The Executive Committee opted to charge the Information Technology Committee with investigating current practices.

Additionally, the committee remanded to the Information Technology Committee two CATS initiatives dealing with 1) Change in Apple Mac OS X Licensing and 2) Microsoft Forefront Endpoint Protection for review.

The committee continued discussion regarding course numbering. Both EC and UCAPC support adhering to the use of zero (0) as the fourth digit. Beginning next quarter, the UCAPC and the Graduate Policies Committee have been charged with creating a policy to address the issue.

Executive Committee received an update from member Carole Endres on the work of the Faculty Affairs Committee regarding non-bargaining unit faculty workload.

The Free Speech Policy, as submitted by the Ad hoc Committee on Free Speech, was discussed. Comment was solicited from the Office of General Council and the WSU Police Department. While General Council had no comment, the WSU PD missed the response deadline. The document was placed on the March 7, 2011 Senate agenda but will be postponed pending further comment from the administration and AAUP.

Based on concern expressed by a Senator at the February 4, 2011 meeting, the Executive Committee asked Information Technology to explore blind student's accessibility to campus technology.

Finally, the Executive Committee approved the agenda for the March 7, 2011 Senate meeting.

Following the Executive Committee report, a lengthy discussion on course numbering ensued.

A MOTION was made to, "Suspend the De facto policy of course numbers ending in zero (0) until a policy can be put in place that can be voted upon by Senate."

Motion Seconded and Approved.

Vote: Sixteen (16) voted in favor of the Motion. Fifteen (15) voted against the motion.
