Subject Agenda Item for May 21 Faculty Meeting

As indicated by Walker Allen, Secretary of the Academic Council, in his letter of March 28 to you, the Academic Council wishes to present an amendment to the Faculty Constitution and Bylaws to the University Faculty at its May 21 meeting for action.

On February 12 the Research Committee of the Academic Council presented to the Council, for its consideration, a proposal to create a Research Organization, which would include a Research Council whose duties and functions would absorb those of the present Research Committee (see Attachment F to Academic Council Minutes of February 12, 1969). On March 12 this proposal, as amended slightly, was approved by the Academic Council (see Item V.C.1. of Minutes of March 12, 1969, pp. 6-7). At the same time a motion was adopted to recommend to the Faculty at its May 21 meeting "that upon approval by the Board of Trustees to establish the Research Council, appropriate action be taken to delete the Research Committee from the Faculty Constitution and Bylaws" (see Item V.C.2 of Minutes of March 12, 1969, p. 7).

As mentioned by Mr. Allen, I shall be presenting the proper motion before the Faculty at its May 21 meeting. This motion will be as follows:

"On behalf of the Academic Council, I move that, upon the approval of the establishment of a Research Council by the Board of Trustees:

"A. Article III Section 11 (4)((5)) be deleted;

"B. The number of Article III Section 11 (4)((6)) be changed to Article III Section 11 (4)((5))."

Subject Item to be included on agenda for full faculty meeting

One major change in university governance in recent years has been a marked shift in the balance of power from administrative dominance to shared responsibility with the faculty. The return to a collegial as opposed to an hierarchical form of governance is necessary if universities are to remain centers of free inquiry. Overwhelming evidence demonstrates that creativity does not flourish in a hierarchically led organization. Thus, a university committed to the communication and advancement of knowledge should also be committed to collegial leadership. For this reason, I propose the immediate establishment of a Faculty Senate to supplement the existing Academic Council. Recent events involving the non-renewal of some faculty contracts and other related matters show the need for a Faculty Senate. Although the integrity of no one person involved in these actions is in question, some judgements may be interpreted as having contributed to the abridgement of academic freedom at Wright State University.

A main function of the Faculty Senate will be to provide a free and open forum for the faculty on all matters of concern to it and to guard the faculty against unwise decisions of the Academic Council.

Presented below are a few suggestions which I believe to be essential ingredients of an effective Faculty Senate. I THEREFORE MOVE THAT THE VICE PRESIDENT OF THE WRIGHT STATE UNIVERSITY FACULTY APPOINT A FACULTY COMMITTEE TO INVESTIGATE THIS CONCEPT AND THAT THE COMMITTEE REPORT TO BOTH THE FACULTY AND THE ACADEMIC COUNCIL WITH FIRM RECOMMENDATIONS FOR ACTION AT THE NEXT REGULARLY SCHEDULED FULL FACULTY MEETING.

Suggestions for a Faculty Senate

Membership in the Faculty Senate shall consist of all fully affiliated faculty in continuous employment at Wright State University since September 1, 1967; all fully affiliated faculty holding academic rank of Assistant Professor or higher; all administrators holding faculty rank and teaching at least one course per year; and the President of the university.

The President of the Faculty Senate will be elected by the entire faculty and will serve as Chairman of the Steering Committee of the Academic Council.

The Senate shall answer simultaneously to the Board of Trustees of Wright State University and to the President of the university. This will provide the Board with direct access to the faculty and vice versa. In this connection the Senate shall be empowered to discuss any matters it deems important to the welfare of the university and the faculty.

The Faculty Senate shall have three standing committees and authority to form any ad hoc committee it deems advisable. These committees are:

(1) The Faculty Affairs Committee. Elected at large by the entire faculty, this committee would assume most of the functions of the Faculty Affairs Committee of the Academic Council.

(2) Academic Freedom and Tenure Committee. Membership by appointment of the Advisory Committee (see below). The Chairman of the committee is to be elected by the members of the committee. The responsibilities of this committee will be similar to those of the AAUP committee of the same name.

(3) Advisory Committee. Membership shall consist of the President of the Faculty Senate, the chairmen of the two other standing committees, two non-tenured faculty members elected by the non-tenured faculty. All members of the Advisory Committee will hold membership on the Academic Council and thus serve as liaison between the two groups. This membership would balance off the membership of the administrative appointees and provide for at least four at-large members of the Academic Council elected by the entire faculty.

Thank you for taking the required steps for presenting the above proposal to the entire faculty.

Subject Agenda item for Faculty Meeting re: University-wide
General Education Requirement

Rationale: This is one University with all faculty concerned about and involved in the education of all students. There are minimal, general education requirements which can be established based on current efforts underway in the various divisions. Various requirements in individual divisions can harshly penalize the student who changes majors.

Therefore: I move that the Curriculum Committee present to the Academic Council a University-wide general education requirement and this final proposal to the council should be based on the proposals submitted by the various Divisions.
