Prerequisite: CS 241
Environment: Microsoft Visual C++

Grading:
- Programming assignments (%9 each): 36%
- Laboratory exercises: (3% each) 24%
- Examination 1 20%
- Examination 2 20%

The basic scale is: A:90-100, B:80-89, C:70-79, D:60-69, F:0-59

Policy
- I encourage working with other people on the course concepts, but all your programs must be your own; sharing of program code will result in a grade of “zero” for all those involved; official university policy will be followed in case of academic dishonesty.
- Start early on projects and labs! Do not attend the labs empty handed!
- No late projects or laboratory exercises will be accepted. Partial credit is available so always submit the work you have completed on the assigned due date via WebCT.
- It is your responsibility to check WebCT regularly for announcements and materials for this course.
- No make-up exams unless verifiable emergency.
- You can reach me a number of ways. Email is the best as I check it several times a day. You may also stop by my office during office hours or by appointment.
