

November 16, 2017, Thursday
2:00-3:30, Millet Atrium
Wright State University

Yana van der Meulen Rodgers

Professor of Women's and Gender Studies at Rutgers University

**The Relationship between LGBT Inclusion
and Economic Development:
Micro and Macro-Level Evidence**

One can make a human rights case and a moral case for LGBT rights, but sometimes policymakers need quantitative evidence that more inclusion matters and this talk presents those numbers. The talk is based on a USAID report co-authored by several feminist economists.

Dr. van der Meulen Rodgers has a Ph.D. in Economics from Harvard. She served as President of the *International Association for Feminist Economics* in 2013-14. She has worked regularly as a consultant for the World Bank, the United Nations, and the Asian Development Bank.

The event is free and open to the public.

Co-sponsored by:
**Economics Department &
Women, Gender and Sexuality Studies**
