We are glad to witness the rapid growth with which our vacant lots are being filled with large and handsome business blocks. Never in the history of the West Side have so many beautiful buildings been erected as in the past year. The prospects for the year upon which we are now entering seem more interesting still, and ere the year closes many changes will take place in our midst. As the process of business demands more room, these buildings have been erected, and stand as representatives of our prosperity and progress. The improvement in our prospects of our prosperity and enterprise of which has never been seen. K. of P. conferred the knight of Marthia for business and industry. The improvement in our city not only as an excellent place for business and manufacturing purposes, but also as advantageous for business and manufacturing purposes. When a sufficient amount of enterprise can be infused into the souls of our people and the ruinous habit of patronizing East Side business men for things which we can easily and well obtain at home, the West Side will take a boom, the like of which has never been seen since its beginning.

A Tablespoonful of Pearline in a pail of water, will convince a woman against her will that it washes everything; best and quickest—injures nothing; caries or fine—just the reverse—by doing away with the rubbing it saves the very thing which ruins the most clothing—especially fine things. It takes the drudgery out of woman's hardest work. Wash day and cleaning time are no longer "bugbears" in the homes where Pearline is used, and these homes number millions.

Rollers and some expenses upon them are offered for a small price for that claim is the Pearline, or "the same as Pearline." IT'S FALSE—they are not, and are never offered to the public.

**ECONOMY IS WEALTH.**

Cereal Nathan was supposed to have made the remark, "Every man is the architect of his own fortune." Any body who will send her name and address on a postal card to D. L. Larkin & Co., ordering all her goods at the usual Bargain Bases, is on the high road to fortune, because in no other way can be obtained so many articles at general store prices as in the household at next to no price, such as new tin Tubs, Soaps, Borax, and "Pearline" Powder, Shaving Soap, "Fruit Flavored" and "Syrup" Honey Soap (of which there are our hundred cakes, enough to last the ordinary household a year. You will run no risk in ordering, as the goods will be delivered to your front yard, can be kept on dry days and used dry days during that time; then, if you are not satisfied, they will remove all without expense to you. All that is necessary is to send a postal to D. L. Larkin & Co., Buffalo, N. Y. "with your name and address on it, and they will send you this box, the price of which is only $1.00, per label, free."

We want to be known as a house of high character and reliability, but we are not afraid of it. She is now in full flower and is in the family circle.

**PEARLINE**

Does it hurt the Clothes?

We hear that some woman said of Pearline—"it's the greatest thing I ever saw for washing and cleaning, in fact, it does so much I'm afraid of it." She never tired of saying "too good to be true.

How absurd to suppose that the universal popularity of Pearline is due to anything but wonderful merit.

How absurd to suppose that millions of people would use PEARLINE year after year if it hurt the hands or clothing.

How absurd to suppose that any sane man would risk a fortune in advertising an article which would not stand the most severe (and women are critical) tests.

That's just what PEARLINE will stand. Test it for easy work—quality of work—for saving time and labor—wear and tear—economy—test it any way you will—but test it.

You'll find PEARLINE irresistible.

**Beware**

Peddlers and some newspapers affecting opinions which they claim to be Pearline, or the Guarantee of PEARLINE, are not only illegal, but besides are dangerous.
