An accident occurred on the D., F. W. & C. road Tuesday. Where the road crosses the lower hydraulic race, East First street, is a side track about two hundred feet long, terminating at the bank of the race. The end of the track is not guarded by a bumper; only a railroad tie is fastened across the rails. The siding opens on the main track by a switch. As the train from Third street depot approached this at a rapid rate, the engineer did not notice that the switch was by an over-sight left open. Instead of following the main track the train was directed into the siding. Immediately the engineer turned on the air-brakes. The distance was too short to bring the train to a halt. On the engine went, broke aside the rail on the track, and jumped the race. "The man in the cab jumped and were uninjured. The passenger coaches came to a stop and remained on the rails. The passengers were badly shaken up, but otherwise unharmed.

This afternoon the Dayton Gun Club will have their regular fortnightly medal shoot, on their grounds in Riverdale, at the end of the White Line. Mr. B. S. Rike at present holds the medal, and the "boys" will try to down him tomorrow. Scott McDonald, Coote, Rumpy Sandor, Ed Cain, Fritcher, and other manipulators of the "breach-loader," are after Rike with heavy shells. Of course there will be several sweepstakes shoots at the Riverdale grounds tomorrow afternoon, and lots of sport.

We are glad to witness the rapid growth with which our vacant lots are being filled with large and handsome business blocks. Never in the history of the West Side have so many beautiful buildings been erected as in the past year. The prospects for the year upon which we are now entering seem more interesting still, and the year closes many changes will take place in our midst. As the progress of business demands more room, these buildings have been erected, and stand as representatives of our prosperity and progress. The improvement in our various business enterprises within the past six months has never been equaled. Indeed, we now possess a number of dry-good, clothing, shoe and grocery stores, of which we may justly be proud. Like of which has never been seen K. of P. conferred the knight of residence, but also as advantage of our East Side business men of our branches of business which are yet till

A man was arrested on King street, Tuesday, by Officer Shafer. He said he was from Sharpsburg, but it matters how much if whisky in him anyway. He amused himself by racing with the street cars, and in every way won the race. His arrest put an end to the race. The little bay pony which he was driving was lodged in Van Horn's livery stable.

Nearly seventy guests were present to participate in the pleasures of the evening. The evening was spent in games, music, speeches and conversation. Does it hurt

the Clothes?

We hear that some woman said of Pearlline—"it's the greatest thing I ever saw for easy washing and cleaning. In fact, it does so much for me, I'm afraid of it. She said the old soap was too good to be true."

How absurd to suppose that the universal popularity of Pearline is due to any thing but wonderful merit.

How absurd to suppose that millions of people would use PEARLINE year after year if it hurt the hands or clothing.

How absurd to suppose that any sane man would risk a fortune in advertising an article which would not stand the most severe (and women are critical) tests.

That's just what PEARLINE will stand. Test it for easy work—quality of work—for saving time and labor—wear and tear—economy—test it any way you will—but test it. You'll find PEARLINE irresistible.

Beware of Peddlers and some unsavory articles, which claim to be Pearline, or "the same as Pearline." They are substitutes, and besides are dangerous.
