WHY NO HARDWARE STORE.

Mr. Eason — I would like to ask the column of your valuable paper why it is that we have no hardware store on the West Side. What the people of the West Site want is a hardware store where we can get what we want, not take what we can get, or go without. A good store would get the patronage of the majority of our citizens, who are now compelled to go to town for their goods.

CITY NEWS.

The working force in the post-office Sunday evening presented the retiring postmaster, Mr. L. E. Judson, with a handsome antique rocker, as a testimonial of their respect for him. C.W. Ellis made the presentation speech. Mr. Judson returned thanks, and assured the givers that he would continue to feel an interest in their welfare.

The buggy shed of Zwick, Greenwald & Co., was completely demolished Tuesday morning by a train of freight cars. In switching, part of the train was cut off and sent down the switch at a rapid rate. The brake man lost control of the cars and they ran off the end of the switch, which is without a bumper. Fortunately there was no horse and buggy in the shed at the time or the damage would have been much greater.

When Mr. Jacob Weaver returned to his home on Samuel street at a late hour Saturday night, he thought he smelled burning wood, and he made an inspection of the premises. Not finding anything to justify his fears, he retired to bed. But the odor of burning wood continued to smite his nose, and he arose determined to thoroughly search for the cause. On going into a room of a frame kitchen, he found a box in which ashes were put, just beginning to send up a small blaze; in half an hour his kitchen would have been fired. It was only a few minutes, without extinguishing the fire. If the property had been burned down it would have been "the work of on incendiar." Mr. Fred Habor, who resides on a farm a few miles west of the city, on the Wolf Creek pike, met with a terrible accident Monday afternoon while assisting in re- 

An accident occurred on the B., F. W. & C. road Tuesday. Where the road crosses the lower hydrant, ice race, East First street, is a side track about two hundred feet long, terminating at the bank of the river. The end of the track is not guarded by a bumber; only a railroad tie is fastened across the rails. The siding opens on the main track by a switch. As the train from Third street depot approached this at a rapid rate, the engineer did not notice that the switch was by an over-sight left open. Instead of following the main track the train was di- rected into the siding. Immediately the engineer turned on the air brakes. The distance was too short to bring the train to a halt. On the engine went, broke aside the rail on the track, and jumped the "race." The men in the cab jumped and were uninjured. The passenger coaches came to a stop and remained on the rails. The passengers were badly shaken up, but otherwise unhurt.

This afternoon the Dayton Gun Club will have their regular fortnightly medal shoot, on their grounds in Riverdale, at the end of the White Line. Mr. E. D. Rike at present holds the medal, and the "boys" will try to down him tomorrow. Scott McDonnell, Coe- fer, Runy Santer, Ed Cain, Pletcher, and other manipulators of the "bench-loaders", are after Rike with heavy shells. Of course there will be several sweepstakes shots at the Riverdale grounds tomorrow afternoon, and lots of sport.

[We are glad to witness the rapid progress in our city. Many beautiful buildings have been erected and are being built, and the change is noticeable everywhere. The improvements in our city are being made not only for the sake of appearance, but also as advantages for business and manufacturing purposes. When a sufficient amount of enterprise can be infused into the souls of our people, and the ruins of habit of patronizing East Side business men for those things which we can equally well obtain at home, the West Side will take a boom, the like of which has never been seen since its beginning.]

Late Sunday afternoon, Officers McBride and Shaffer made the arrest of John Schroeder, who resides on South Williams street. An account was given in Sunday's papers that requisition papers had been granted by the governor. Schroeder was apprehended by his danger, but before he could get away he was arrested by the above named officers, at the residence of Mrs. J. McClure, who live just outside of Jackson county, Indiana, where he will be taken to answer to the charge of burglary and arson.

A man was arrested on King street, Tuesday, by Officer Shaffer. He said he was from Sharpsburg, but it matters little, as he has been given a great amount of whisky in him anyway. He amused himself by racing with the street cars, and in every way he won the race. His arrest put an end to the racing. The little bay pony which he was driving was lodged in Van Horn's living stable.

Monday evening a very pleasant celebration of the third anniversary of the wedding of Mr. and Mrs. Chas. Williams took place at their residence on North Williams street. Nearly seventy guests were present to participate in the pleasures of the evening. The evening was passed in songs and conversation. ECONOMY IS WEALTH.

Central Pennsylvania is said to have made the remark, that "Economy is the insulating, thinning, and economical covering of all fortunes." Any lady who will send her name and address in a postal card to D. L. Laskin & Co., ordering all of their Great Bargain Boxes, is on the high road to fortune, because no other way can be obtained so many articles for general use in the household at such a price, as those fine Tidewater Soups, Biscuits, Four Popular Shaving Soap, and "Sperian" Soap, (of which there are about hundred cakes) enough to last the ordinary household a year. You will run no risk in ordering, as the goods will be delivered to you freight prepaid, can be kept on thirty days trial and send back your day during that time; then, if you are not satisfied, they will remove all without expense to you. All that is necessary is to send a postal to D. L. Laskin & Co., Buffalo, N. Y., with your name and address on it, and they will ship you this box, the price of which is only $1.00, the value of about $5.00, and useful presents, that you either give up by not ordering, or pay for nothing, and instead of taking many trips to the grocery, many trips may be saved to the bank with the money you have saved through buying from the above-mentioned firm.

Does it hurt the Clothes?

We hear that some woman said of Pearlline—"It's the thing. I don't care for easy washing and cleaning, in fact, it does no more working than I'm afraid of it." She said she never dreamed "it was good to be true." But Pearlline was sure made to improve the universal popularity of Pearlline is due to anything but wonderful merit. How assured to suppose that millions of women would use PEARLINE year after year if it hurt the hands or clothing.

How assured to suppose that any sane man would risk a fortune in advertising an article which would not stand the most severe (and women are critical) tests.

That's what PEARLINE will stand by. Test it for easy work—quality of work—for saving time and labor—wear and tear—economy—test it any way you will—but test it. You'll find PEARLINE irresistible.

Beware of the false and some unscrupulous peddlers and some unscrupulous peddlers who claim to be Pearsone, or "The True and Honest Fruits of Pearsone," &c., &c., &c. They are not, and badges are dangerous.
